

THRACE GROUP
A WORLD OF MATERIALS & SOLUTIONS

CORPORATE PRESENTATION |

June 2024

The Group

- **At a Glance**
- **Technical Fabrics Segment**
- **Packaging Segment**
- **Agricultural Segment**

Thrace at a glance

Engages in

3 business units

Technical Fabrics
Packaging Solutions
Hydroponic agriculture

Covers

25 market segments

with products and solutions

Employs

2,091 employees

including joint ventures

Develops in

80 countries

sales network

Implements

28 different technologies

in production processes

Reuse of

100%

internal recycled material

Operations in

9 countries

with production, trading and distribution companies

Comprises of

14 companies

worldwide engaged in active operations

FY23 Group net sales

€ 345 mil.

42% Europe (excl. Greece & UK)

23% Greece

16% UK

10% Rest of Europe

7% America

1% Asia, Africa & Oceania

Production

73% in Greece

15% in the UK

11% in S-E Europe

1% in America

Process over

110,000 MT

of raw materials from polypropylene and polyethylene

Commits to replace

8,500 MT

of primary raw materials with recycled plastic by 2025

Utilizes

12,976 MT

of recycled material from production residues and external sources

Operates

10.8 MW

of photovoltaic systems

Technical Fabrics Segment

- Production and trade of synthetic fabrics for industrial and technical uses.
- Broad and diversified product portfolio.
- Europe-based production with a global footprint.
- Extensive sales network, mainly in Europe and America.

Product Families

Geotextiles (woven, nonwoven)

Geogrids

Geocomposites

Fabrics

Membranes

Film

Nets

Strapes

Ropes

22.5%

- New greenhouses (6.5 Ha), increase of volume and product portfolio
- Strong demand and positive feedback for our packaged products, new varieties of tomatoes (pink) and eggplants.
- Dynamic market expansion in Greece - Gradual kick off of exports.
- Green Company of the year 2023 - Green brand awards
- Gold Green Brand Award for Packaging 2023

We steadily grow the future of sustainable greenhouses

Strategy

- **Overview**
- **CAPEX**

Strategy Overview

Group Strategy

Pursuing Profitable growth through innovation and sustainability

Focus on Adding Value Products

Explore New Business Opportunities

Safeguarding Financial Discipline

Technical Fabrics Segment

Be a trusted European Producer, with global footprint, focusing on innovation & sustainability

Key pillars:

- Continuous improvement of Product Mix
- Going downstream to the value chain through new conversion capabilities
- Adopt new routes to markets
- Focus on conversion cost optimization

Packaging Segment

Be a trusted SE Europe based Producer, with strong product portfolio and innovative packaging solutions

Key pillars:

- Targeted volume increase
- Geographical and markets expansion
- New products to offer a complete product range
- Focus on conversion cost optimization

Agricultural Segment

Be the most sustainable Greenhouse with focus on a qualitative product portfolio

Key pillars:

- Expansion by 130 acres
- Introduce new products
- Focus on products branding through new packaging proposition
- Gradually increase exports

Capex Progress

An extensive cash CAPEX plan of €149 mil. during the last 5 years, targeting value adding products, increase conversion capabilities and focused capacity increase

Focus is placed on profitability increase and value adding technologies, in parallel with targeted capacity growth

Normally,

- 70% of CAPEX for New Business
- 30% maintenance and infrastructure projects

FY 2023 investment program (~€30 mil.) implemented:

- **New pilot investment in paper packaging completed**, providing a complete product range in the market
- **New Printing Line for Films and FFS business** – completed within 2024
- **Further investments in automations / robotics** in production processes
- **Further capacity growth in Rigid Packaging** (new Injection machines in Greece, and Ireland – in progress)
- **Further expansion in Greenhouses**, with additional **65 acres of GH completed**
- **Further RES investments (photovoltaics)** implementing another 5MW
- **Continuous investments in Health & Safety**

FY2024 CAPEX Plan

Aligned with strategic priorities, FY2024 CAPEX focuses on increasing conversion capabilities and adding new capacity

Technical Fabrics: Increasing Conversion capabilities and new product development

Packaging: Increasing capacity and expanding product offering

FY 2024 investment program (~€30 mil.) :

- **New extrusion coating line**, expanding the conversion capabilities and going downstream the value chain aiming the construction and agricultural markets – the line will be operational in Q1 2025
- **New 9-layer blown film line for production of lamination films for food and non-food markets** – the line will be operational in H2 2024
- **Further investments in automations / robotics** in production processes
- **Further capacity growth in Rigid Packaging** (new Injection machines in Greece, Bulgaria and Ireland, 2nd Thermoforming IML line in Greece)
- **Further RES investments (photovoltaics) in Ireland** with another 0.5MW
- **Continuous investments in Health & Safety**

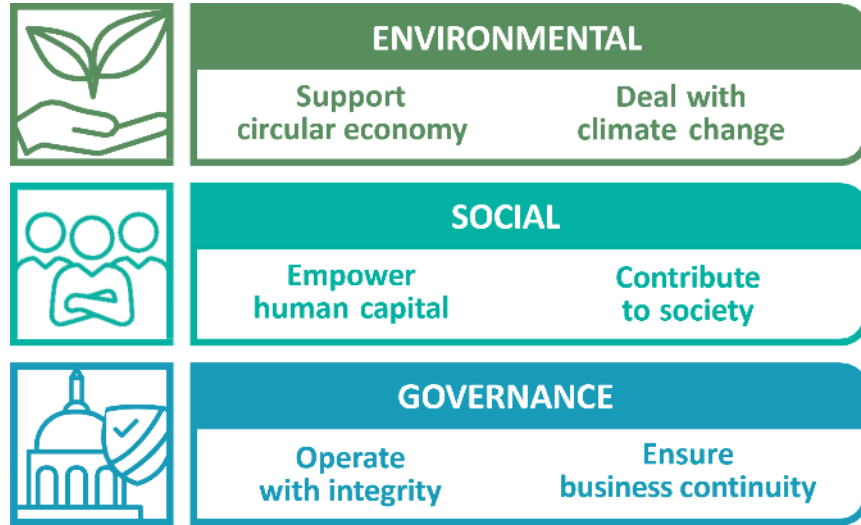

Approach to Sustainable Development

- Operating with respect to society and the environment
- Creating solutions for a sustainable future

Sustainable Development

We are implementing a robust strategy according to UN SDGs

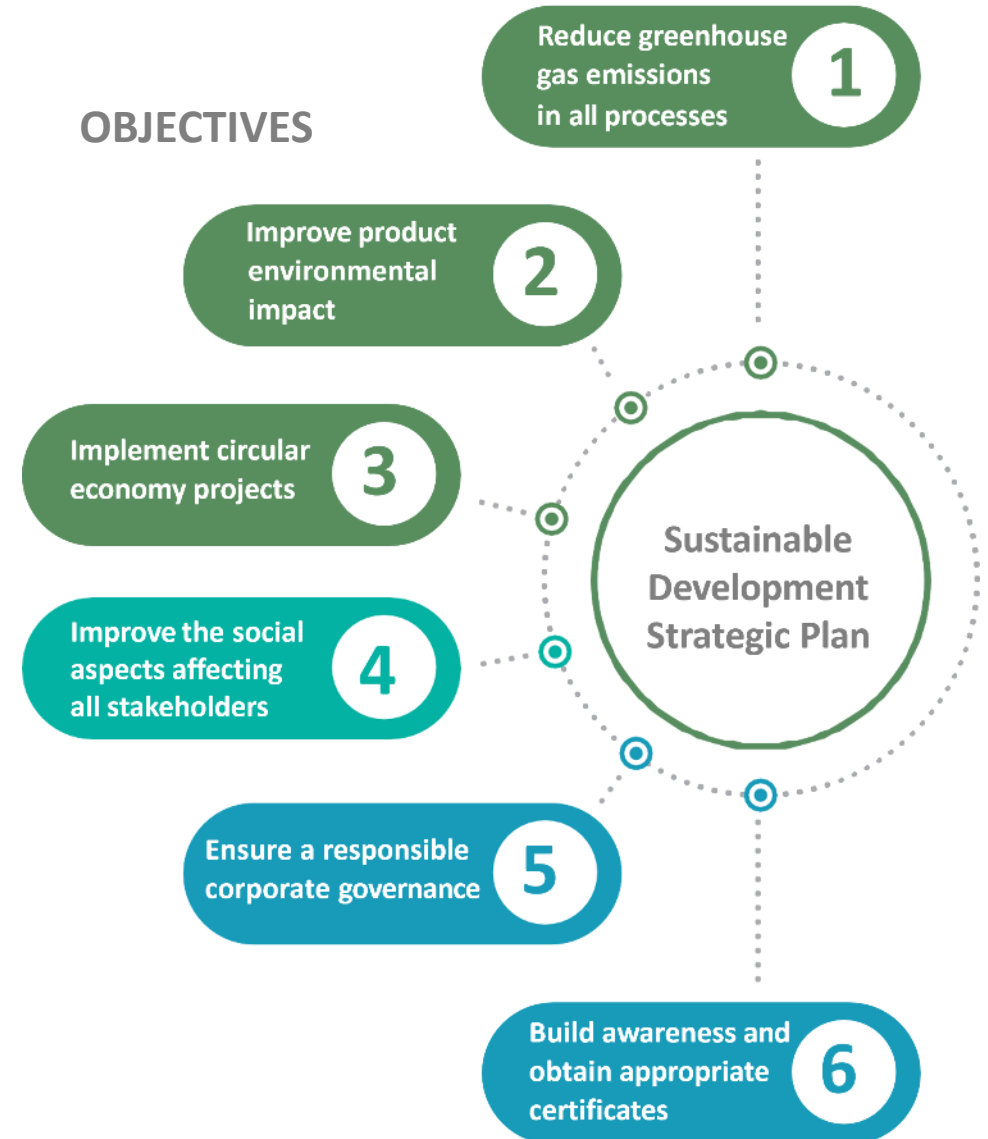

PRINCIPLES

SIGNIFICANT IMPACT ON 7 SDGs

OBJECTIVES

Sustainable Development

Focus on Circular Economy by developing sustainable products with a positive environmental impact

Design priorities

- Low environmental footprint
- Lowest possible weight ensuring same durability
- Reusability
- 100% recyclability through monomaterial characteristics
- Use of recycled material up to 100%

Recyclability, traceability & transparency

- RecyClass
- EuCertPlus
- OK TUV
- LCA
- EPD

RECYCLED RAW MATERIAL

WASTE MANAGEMENT

Sustainable Development

Focus on energy efficiency, which is a never-ending effort

ENERGY EFFICIENCY IMPROVEMENT

Total energy consumption
in 2023

195,802 MWh

Energy consumption from
renewable sources owned by
the Group in 2023

15,332 MWh

RENEWABLE ENERGY

7.8%

USE OF ENERGY FROM
RENEWABLE SOURCES

10.8MW

POWER OF
PHOTOVOLTAIC SYSTEMS
[6.7 MW in 2022]

**2025
TARGET**

10%

OF THE ENERGY
COMSUMPTION WILL BE
SELF-GENERATED FROM
RENEWABLE SOURCES

in accordance with the levels
of current productivity

Carbon footprint

For the monitoring & calculation of greenhouse gas emissions, we employ a **specialized platform** aligned with the **GHG Protocol** methodology and **ISO 14064-3**.

We are in the process of establishing relevant reduction targets through the international **Science Based Targets Initiative (SBTi)**.

Sustainable Development

Strong progress in the expansion of **IN THE LOOP** platform, aiming to link stakeholders and upcycling the plastic waste

In the Loop

- Is based on the 3 pillars of the circular economy **REDUCE | REUSE | RECYCLE** and networks companies, brands, public bodies and consumers with the aim of reducing the environmental footprint throughout the value chain.
- Reflects the Group's approach regarding the environmental impact of packaging materials and the avoidance of their disposal in the environment.
- Contributes to the creation of lighter products with the aim of reducing the use of plastic while maintaining the same technical characteristics, reusable products and products from recycled raw material.
- Designs specialized reuse systems that enable monitoring and certification of the number of uses and specialized closed/controlled cycle recycling systems.

200+
ASSOCIATE MEMBERS

Sustainable Development

We contribute to the local societies, with many initiatives for the local communities

SUPPORTING LOCAL COMMUNITIES

The Group is committed to creating economic value for the societies in which it operates, with a focus on:

- Strengthening the local economies of the countries in which it operates.
- Meeting the needs of surrounding communities affected by its activities.
- Creating and maintaining employment opportunities throughout its value chain, both directly and indirectly.

HEALTH AND SAFETY OF EMPLOYEES

- Operating in compliance with the health and safety legislation
- Establishing certification systems (ISO, EMAS)
- Training employees in the workplace
- Assessing and prioritizing hazards mitigation in the workplace
- Applying measures to prevent health and safety accidents
- Formulating a health insurance program for its employees

RESPECT OF HUMAN RIGHTS

- Committed to zero tolerance for acts of harassment in the workplace, forced child labor and any other type of discrimination.
- Committed to resolving complaints and treating employees in a fair and impartial way.
- Developed whistleblowing policy & reporting platform
- Established Human Rights Policy

HEALTH AND SAFETY OF PRODUCTS

- Complying with the relevant national legislation but also adopting international guidelines, safety rules, best practices and industry standards for the production and design of its products
- Following best practices such as consolidating partnerships with suppliers and customers to optimize the added value of the supply chain and establishing quality management processes

Sustainable Development

Robust Corporate Governance framework, being part of who we are and how we operate

BOARD OF DIRECTORS

- 11 Board Members: 2 executive members, 9 non-executive members (5 independent members, including the Vice-Chairman)
- Board performance assessment on a yearly basis (both independent and self-assessment)

BOARD OF DIRECTORS COMMITTEES

- Audit Committee (including Risk & Compliance)
- Remuneration & Nominations Committee
- Sustainability Committee
- Strategy & Investments Committee

CORPORATE GOVERNANCE COMPLIANCE

- Full compliance with current CG code – First audit was successfully completed with zero material deficiencies.

“Sustainable development is at the core of our corporate strategy and culture.”

K. Chalioris
Chairman of the Board

“We remain consistent and committed to our goals, we reinforce our position in the market and we continue to invest in sustainable growth and uninterrupted progress.”

D. Malamos
CEO

Sustainable Development

The Group consistently aligns with the most significant initiatives for sustainable development

2018	Disclosure of the approach and the annual performance based on GRI standards	
2019	Value chain collaboration through the circular economy platform In the Loop	
2020	Evaluation of business practices and commitment to sustainable development	ecovadis
2021	<p>Assessment and disclosure of the environmental performance of product families</p> <p>Assessment of environmental impacts, risk management, and initiatives</p> <p>Participation in the ATHEX ESG index of the Athens Stock Exchange</p> <p>Disclosure of the approach and the annual performance based on SASB standards</p>	
2022	Certification of recycled content for specific products by assessing its traceability	RecyClass
	Measurement, disclosure, and actions to reduce carbon emissions indices (scope 1, 2, 3)	
2023	Ranking economic activities as environmentally sustainable based on technical criteria	
2024	Verification of carbon emission reduction goals to address climate change	
2025	Disclosure of the approach and the annual performance based on the ESRS criteria	

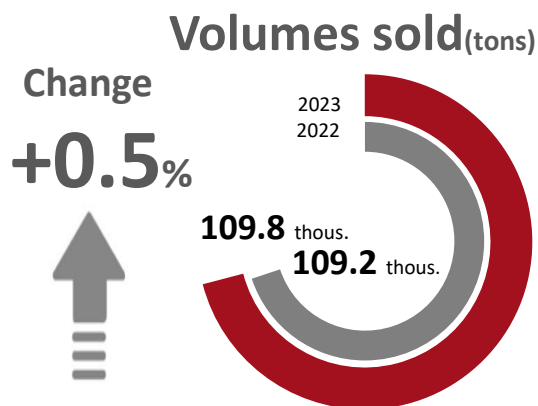

Recognitions

- Retained a "B" distinction in **CDP**
- Received 5 "Silver" distinctions in **EcoVadis**
- Ranked on the highest scale "Platinum" in Forbes Top 100 **ESG Transparency Index** in Greece

Financial Review FY 2023

- ❖ **Another year of strong financial performance in a highly challenging environment**

Financial Performance

In the first months of 2022, the prices of raw materials had fluctuated at historically high levels and therefore sales prices also moved upward during the same year

FY 23 Dividend

*To be distributed after the deduction of interim dividend
Ex dividend date June 3rd

Segments (in €'000)

Recurring EBITDA

NET DEBT

FY23 Highlights

Macroeconomic Environment

- European economy in recession, suffering from constant inflation and high interest rates – Greece at a different pace
- Geopolitical crisis ongoing, impacting consumers spending
- Geopolitical uncertainty, resulting in low demand in specific segments, but also generates opportunities for European producers within Europe
- Constant inflation but decreasing Raw Material prices, due to soft demand
- Decreasing energy cost, still above pre-Covid-19 level

Markets

- Weak demand in Construction segment across Europe, despite the increased needs for new housing
- Weak demand in agriculture, due to increased cost – partial recovery in 2024
- Stable demand in civil infrastructure projects, supported by governmental spending
- Limited to zero demand for face masks and COVID-19 related products
- Demand for packaging products increased due to tourism increase and a stable increase of HORECA business at a country by country level
- Food industry stable, despite the increased cost

FY23 Highlights

Technical Fabrics

- Technical Fabrics in Europe suffered due to low demand and increased imports in commodity products
- European Union legislation does not promote European production
- Post COVID-19 effect in sub-markets (e.g. Spunbond fabrics) with consolidation or exits anticipated
- Business in new geographies (e.g. Canada), partly counterbalancing European soft demand
- Different strategy per local market or segment, e.g. new route to markets in the UK
- New product development

	TECHNICAL TEXTILES	47,555
	Turnover 230,755	GROSS PROFIT
	12M 2023	EBITDA 24,635

Packaging

- High demand for packaging products in all countries of operation
- The increase of tourism, HORECA and paints business as well as the increase of customers exports (mainly yogurt) resulted in increased demand throughout the year
- Increase demand in Super-Markets (food business)
- Thrace maintained top position in main markets, opening new markets in Europe
- New products and technologies introduced in the market (e.g. lighter weight products, Thermoforming IML)

	PACKAGING	28,875
	Turnover 125,202	GROSS PROFIT
	12M 2023	EBITDA 19,655

Financial Analysis

FY2023 volume sold remained stable, therefore decline of Turnover is purely a result of lower selling prices, due to lower RM cost

EBITDA, EBIT and Earnings before Taxes (EBT) of 2022 include Profits from COVID-19 products amounted to €5.3 mil.

On comparable terms, EBITDA posted an increase of 2.4%, amounting to €44 mil. for 2023

Continuing Operations (in €'000)	FY 2023	FY 2022	Δ%
Volumes (Tons)	109,757	109,169	0.5%
Turnover	345,373	394,382	-12.4%
Gross Profit	77,069	84,263	-8.5%
<i>Gross Profit Margin</i>	22.3%	21.4%	
EBIT	20,663	27,407	-24.6%
<i>EBIT Margin</i>	6.0%	6.9%	
EBITDA	44,017	48,259	-8.8%
<i>EBITDA Margin</i>	12.7%	12.2%	
EBITDA Recurring	44,017	42,982	2.4%
EBITDA Covid 19 products	-	5,277	
EBT	21,336	32,068	-33.5%
EBT Recurring	20,248	22,228	-8.9%
<i>EBT Margin</i>	6.2%	8.1%	
EAT	18,326	26,270	-30.2%
<i>EAT Margin</i>	5.3%	6.7%	
EPS (€)	0.413	0.599	-30.9%

Financial Results

Turnover

In the first months of 2022, the prices of raw materials had fluctuated at historically high levels and therefore sale prices also moved upward during the same year

Volumes sold (tons)

Robust financial performance, with increased recurring EBITDA and lower Net Debt

Recurring EBITDA

Recurring EBT

Total Debt

Net Debt incl. Time Deposits

Note: Amounts in mil.

Segmental Performance

- **Technical Fabrics business** suffered from low demand in main market segments (construction, agriculture)
- **Packaging business** progressed due to increased demand in tourism, HORECA business and paints industry, as well as increased market shares in geographies of operation
- The Group's operation into two different segments with some common characteristics, but different dynamics, depicts a well diversified business

Financial Position

Further strengthen of Group's Balance Sheet, with increased assets base, as a result on new CAPEX

Balance Sheet (in €'000)	2023	2022
Fixed Assets	191,253	182,209
Other NC Assets	30,472	27,579
Non Current Assets	221,725	209,788

EV / EBITDA	4.4	4.2
ROCE	5.6%	6.9%
ROE	6.5%	9.8%
ROIC	6.0%	7.5%
Operating WC	95,720	100,554
<i>as a % of Sales</i>	<i>27.7%</i>	<i>25.5%</i>

Working Capital

DSO, DPO, DIO follow a normal pattern, excluding 2021, which is considered an outlier

DSO remains at a normal range, driven primarily by the increased sales of the period

Inventories days increased, but declined in absolute numbers, due to increased volumes of finished goods

Note that Finished Goods are connected to existing orders not delivered at year end

DPO at normal range, with no material fluctuation

Working Capital days have returned to normality. Inventories higher days, but lower in absolute numbers

Cash Flow Overview

Strong Operating Cashflows, financing CAPEX, while FCF of €20mil. mainly allocated to debt repayment and dividends

Cash Flow Bridge (in €'000)

■ Increase ■ Decrease ■ Total

Net Debt

After the historical high net debt of €84 mil. in 2019, following the 5yrs restructuring plan, Net Debt has settled at low levels from 2020 onwards

This fact proves the robustness of Group's business and that remains in a position to keep low Net Debt, while implementing increased CAPEX and distributing relatively higher dividends

At the same time, the Group is in a position to take advantage of new opportunities, by e.g. extending its CAPEX plan or implement targeted new business development

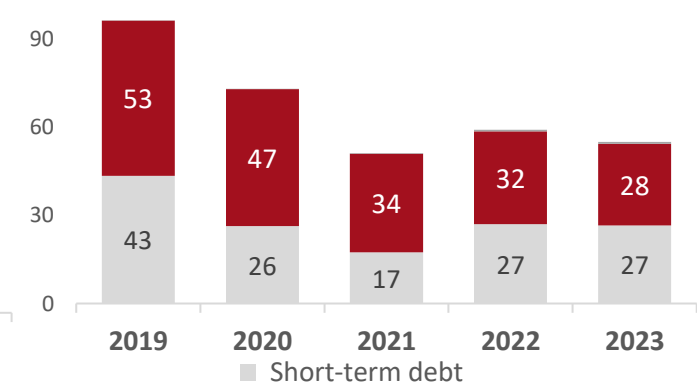

Financing Cost (€m)*

* Excluding interest expense on leases

Debt Maturity Profile*

* Excluding leases

Financial Review Q1

- ❖ **A quarter of robust financial performance and increased EBITDA margin**

Key highlights of Q1 2024 performance

The **volumes sold** increased by 3,1%, primarily as a result of the mild recovery of demand in some sectors of the economy (e.g. agriculture) and the strong demand in Packaging Business

EBITDA amounted to €12.3 mil. due to:

- Increased volumes sold
- Improvement of the product mix

EBITDA margin stood at 13.9%, strongly increased vs. Q1 2023 (EBITDA margin: 12.5%)

Low level of **Net Debt**, despite seasonality (vs Q4 2023), which demonstrates:

- the Group's strong financial position,
- the quality of its client portfolio
- its ability to invest while keeping its Net Debt low

The implementation of the Group's investment plan (amounted to ~€10 mil. on a cash basis in Q1 2024), continues smoothly, with investments in both segments

Financial Results

Continuing Operations (in €'000)	Q1 2024	Q1 2023	Δ%
Turnover	88,347	92,996	-5.0%

Capex

FY 2024 investment program progress (~€30 mil.) :

- **New extrusion coating line**, expanding the conversion capabilities and going downstream the value chain aiming the construction and agricultural markets – the line will be operational in Q1 2025
- **New 9-layer blown film line for production of lamination films for food and non-food markets** – the line will be operational in early part of H2 2024
- **Further investments in automations / robotics** in production processes
- **Further capacity growth in Rigid Packaging** (new Injection machines in Greece, Bulgaria and Ireland, 2nd Thermoforming IML line in Greece)
- **Further RES investments (photovoltaics)** in Ireland with another 0.5MW
- **Continuous investments in Health & Safety**

Outlook H1 & FY2024

2024 Outlook

H1 2024

- **EBITDA** will range at the same or higher level compared to the first half of the previous year

Inflation remains relatively stable, interest rates are being held steady, whereas prices of raw and auxiliary materials have followed a slight downward trend mainly due to the relatively low demand.

FY 2024

Group's Management estimates that **the annual EBITDA of FY2024 could be higher vs prior year**, although there is great uncertainty for the geopolitical conditions and the performance of the global economy.

Thrace Group is now, more than ever, capable of capitalizing on the significant recurring profitability achieved

Thrace Group STOCK / DATA

Alternative Performance Measures

During the description of the developments and the performance of the Group, ratios such as the EBIT and the EBITDA are utilized.

- **EBIT (The indicator of earnings before the financial and investment activities as well as the taxes)**

The EBIT serves the better analysis of the Group's operating results and is calculated as follows: Turnover plus other operating income minus the total operating expenses, before the financial and investment activities. The EBIT margin (%) is calculated by dividing the EBIT by the turnover.

- **EBITDA (The indicator of operating earnings before the financial and investment activities as well as the depreciation, amortization, impairment and taxes)**

The EBITDA serves the better analysis of the Group's operating results and is calculated as follows: Turnover plus other operating income minus the total operating expenses before the depreciation of fixed assets, the amortization of grants and the impairments, as well as before the financial and investment activities. The EBITDA margin (%) is calculated by dividing the EBITDA by the turnover.

- **Adjusted EBITDA (The adjusted figure of operating earnings before the financial and investment activities as well as depreciation, amortization, impairment and taxes)**

The Adjusted EBITDA equals with the EBITDA figure from which the restructuring costs, merger and acquisition costs and other non-recurring expenses have been deducted.

Ratios	Explanation
Net Debt / Sales	Relation between Net Debt and Sales
Net Debt / Equity	Relation between Net Debt and Equity
Net Debt / EBITDA	Relation between Net Debt and EBITDA
EV/EBITDA: Value of the Company / Operating Earnings before Financial and Investment Activities, Depreciation, Amortization, Impairments and Taxes	Current Market Capitalization, plus the Company's Debt, minus its Cash, divided by the Operating Earnings before Financial and Investment Activities, Depreciation, Amortization, Impairments and Taxes
ROCE: Return on Capital Employed	Operating Earnings before Financial and Investment Activities and Taxes minus the Taxes divided by the Total Assets minus the Current Liabilities
ROE: Return on Equity	Earnings after Taxes and Minority Rights / Equity attributable to shareholders of the Company
ROIC: Return on Invested Capital	Operating Earnings before Financial and Investment Activities and Taxes minus the Taxes divided by the Invested Capital (Bank Debt + Equity – Cash)

In no event will any of the Company, shareholders or any of their respective affiliates, advisers, representatives, related partnerships, agents or employees shall have any liability whatsoever (in negligence or otherwise) for any decision made or action taken in reliance on the information of this Presentation or for any loss howsoever arising from any use of this Presentation or its content or otherwise arising in connection with this Presentation or for any consequential, special or similar damages, even if advised of the possibility of such damages or losses.

Unless otherwise stated in the Presentation, all financial data contained herein are stated in accordance with International Financial Reporting Standards (IFRS).

The information included in the Presentation may be subject to updating, completion, revision and amendment and such information may change materially. No obligation is undertaken by the Company to provide any additional information or to update or revise or amend or keep current the information contained in the Presentation or to correct any inaccuracies in the Presentation, in light of new information or future events or otherwise. Any opinions expressed in relation thereof are subject to change without notices.

The Presentation (its existence, as well as its content) is confidential and is made available strictly on the basis of such confidentiality undertakings. By attending or reading this presentation, the Recipients agree not to distribute, publish, reproduce (in whole or in part) or disclose or in any way whatsoever use the information contained in the Presentation and/or any other information made available by the Company in connection to the Presentation to any other person (legal individual or entity), except as expressly permitted and authorized by the Company.

The Presentation does not contain all the information that may be important to investors. An investment in the Company involves risk and several factors could cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements that may be expressed or implied by statements and information in this Presentation, including but not limited to the following: the uncertainty of the national and global economy; economic conditions generally and the Company's sectors specifically; competition from other companies. Should one or more of these risks materialize or should underlying assumptions on which the Presentation was based prove incorrect, actual results may vary materially from those described herein and investors may be subject to losses or damages, for which the Company does not in any event assume any liability.

The Presentation does not constitute or form part of, and should not be construed as, an offer or invitation or inducement to purchase or subscribe for any shares and neither it or any part of it shall form the basis of, or be relied upon in connection with, any contract or commitment whatsoever. This Presentation does not constitute either advice or a recommendation regarding any securities in the United States or any other jurisdiction.

The contents of the Presentation are not to be construed as legal, business, investment or tax advice. The Recipients should consult with their own legal, business, investment and tax advisers as to legal business, investment and tax advice. By attending or reading the Presentation, the Recipients acknowledge that they will be solely responsible for their own assessment of the market and the market position of the Company and that they will conduct their own analysis and be solely responsible for forming their own view of the potential future performance of the Company's business.

Neither this presentation nor any part or copy thereof may be published or transmitted or distributed, directly or indirectly, in the United States, Australia, Canada or Japan or to U.S. Persons [within the meaning of Regulation S under the U.S. Securities Act of 1933, as amended (the “Securities Act”)] or to any resident thereof .

Any failure to comply with these restrictions may constitute a violation of United States, Australian, Canadian or Japanese securities laws. The distribution of this Presentation in other jurisdictions may be restricted by law and persons possessing this Presentation should inform themselves about, and observe, any such restrictions.

The Company's securities have not been and will not be registered under the Securities Act and may not be offered or sold in the United States nor in the above jurisdictions.

The Recipients of this Presentation should not use the information in this Presentation in any way which could constitute “market abuse” (as defined by E.U. directives, regulations and other acts).

FORWARD LOOKING STATEMENTS

This Presentation contains illustrative returns, projections, estimates and beliefs and similar information (the “forward-looking statements”), based on current beliefs and expectations about future events. Forward-looking statements reflect the Company's current views with respect to future events and financial performance and may include statements concerning plans, objectives, goals, strategies, future events or performance, and underlying assumptions and other statements, which are other than statements of historical facts, and are, therefore, subject to certain risks and uncertainties regarding the operations, financial condition, liquidity etc. of the Company.

The forward-looking statements in the Presentation are based upon various assumptions, many of which are based, in turn, upon further assumptions, including without limitation, management's examination of historical operating trends, data contained in our records and other data available from third parties.

Although the Company believes the expectations reflected in such forward-looking statements are based on assumptions that were reasonable when made, because these assumptions are inherently subject to significant uncertainties and contingencies which are difficult or impossible to predict and are beyond the control of the Company, the latter cannot assure that its expectations, beliefs or projections will be attained, achieved or accomplished.

The forward-looking statements are made as of the date of the Presentation, and the Company undertakes no obligation to update or revise or amend or keep current any forward-looking statement or to correct any inaccuracies in the Presentation, in light of new information or future events or otherwise.

By attending or reading this presentation, the Recipients agree to be bound by each and every foregoing limitation.
